FOR DISTRIBUTION OF INDIAN FUNDS

Washington, D. C., July 31.—The house committee on Indian affairs Saturday decided to report favorably Representative Ferris' bill providing for the pro-rating of \$1,500,000 of the Comanche and Kiowa fund among 3,000 of the Indians. The money is to be deposited in local banks in Oklahoma and paid out as the needs of the Indians may require.

The \$2,600,000 Comanche-Kiowa fund which draws 4 percent interest is left intact by the bill. The measure is to be presented to the house on the ground that it constitutes a local emergency. The Indian office has agreed to an extension of the time of payments by white purchasers of Kiowa-Comanche lands provided the Ferris bill passes so as to take care of the needs of the Indians.

On Tuesday the committee will report favorably on the bill to pay the Chickasaws, Choctaws, Seminoles and Cherokees the \$8,000,000 which has accumulated to the credit of these Indians from the sale of their lands. The Indian office is in favor of both measures.

ADA ASPHALT PAVING O. K.

Some two or three weeks ago a quiet visit was made to Ada by Theo. W. Gulick and T. P. Clonts, commissioner of public works and city engineer, respectively, of Muskogee, for the purpose of inspecting the street paving. They were also shown the asphalt mines near town, and the following excerpts from the report made the city commissioners, indicates that they were very favorably impressed. Muskogee is planning to do a great deal of paving and this visit may mean several thousand dollars to Ada. The report is as follows:

"In Ada, we examined all of the rock asphalt streets laid. These streets have been subjected to traffic from six months to a year. They are located in the business district of that town and the heaviest traffic of the town are on these streets. The workmanship on the streets is bad, but the surface of the pavement has the same general appearance as West Seventh street in Oklahoma City and is hard and durable. There are two

or three had places in the pavement at Ada which is due mostly to the poor workmanship and improper drainage. The rock asphalt laid on the streets was taken from the rock asphalt mines about three miles south of the town. It is our opinion that the streets of Ada will compare favorably with the best of sheet asphalt streets as for durability.

"The rock asphalt streets of both Oklahoma City and Ada were laid by the Shelby-Downard Asphalt Company. The rock asphalt at Oklahoma City being shipped from the rock asphalt mines near Ardmore, and that laid at Ada was taken from the mines near that city. The mixtures used in both cities are about the same, except a little more lime rock is found in the mixture used in Oklahoma City. The pavements in both cities after six months of traffic are practically the same in appearance.

"The result of the above investigation seems to point to the following conclusions: That with due skill and good workmanship, rock asphalt streets can be laid that will last and be as durable as the best of sheet asphalt pavements. That when first laid the appearance of the pavement is bad, until it has had sufficient traffic and time to set and smooth out. That weather conditions do not effect the pavement very materially. That no attention need to be paid to the matter of adding bitumen artificially to the natural mixture. And that great care and skill is needed in preparing the asphalt mixture at the plant in order to secure a uniform mixture. And that rock asphalt pavement when properly laid as in Oklahoma City and Ada will make a first class pavement in every particular. And that the more traffic on the street the better. The above report, we think, gives about all the points of interest that we could learn concerning rock asphalt pavement.

"Respectfully submitted,
"THEO. W. GULICK,
"Commissioner of Public Works;
"Park Superintendent.
"T. P. CLONTS, City Engineer."

Owens' Judicial Bill.
Washington, D. C., July 31.—Senator Owen has just introduced a bill providing that by congressional resolution any justice of the United States supreme court or any federal court judge may be recalled and that all federal district and circuit judges shall hereafter be elected every four years.

PAULS VALLEY MAN IS RELEASED FROM JAIL

Hoquiam, Wash., July 29.—Frank H. Carr of Pauls Valley, Okla., whose property is valued at \$300,000, has been released from the county jail at Montesano, where he has been held for three months under the name of Henry Clay, facing the charge of issuing a worthless check on a Texas bank for \$125.

The man disappeared from his home in Oklahoma two years ago and since that time his family has been tracing him. Yesterday attorneys of Oklahoma City secured Carr's release on a \$500 bond and the settlement of the debts and they left for Carr's home.

The Band Concert.

Although on account of the threatening weather it was announced that the usual Saturday evening concert by the Ada band would not take place, it was decided when the clouds broke away just after sundown, that the concert should take place anyway. The boys gathered under the arc light at the intersection of Main and Broadway and for about an hour rendered some splendid selections. A good crowd gathered and enjoyed the music to the fullest extent.

A COMING CITY OF OKLAHOMA

THEO. W. GULICK, MUSKOGEE
BOOSTER, IMPRESSED WITH
POSSIBILITIES OF ADA.

Under the above head Theo. W. Gulick, who for a number of years furnished the greater part of the backbone of the commercial club of Muskogee, and who is now commissioner of public work of that city, writes the following concerning his impressions of Ada, as formed on his recent visit here to inspect the asphalt deposits with a view of making use of this material in paving the streets of Muskogee.

Otis Weaver took him out in an auto, and the article below, published in "Culick's Review," the leading booster organ of the state, shows how Ada profited by the little courtesy shown Mr. Gulick by Mr. Weaver. Says the Review:

Situated in one of the best agricultural fields in valleys that are overlooked by high hills where the mineral output will last as long as man has use for it, natural rock asphalt is found sufficient to pave every street and highway in the state, where limestone and shale exist in inexhaustible quantities, where the daily freight reports show that it is second in the state of Oklahoma, Ada is as surely one of the coming cities of this state as is Muskogee or Oklahoma City.

Ada is a wonderfully active city of about ten thousand people. Every business house is substantially built. It has a splendid three-story brick hotel as finely furnished as any one in the city outside of the Torson. Several churches, one a handsome concrete building that shows up beside any church at present in this state. The East Central normal school is located there and is presided over by Superintendent Briles, one of the pioneer teachers and superintendents of this state and well and favorably known in this city. It has a daily paper second to none in this state in point of editorial ability. In fact Otis Weaver who has for years published a newspaper in Oklahoma—or rather who has for years been in the newspaper business, long time before statehood, is considered as standing in the very front rank of newspaper men, both as to editorial ability and managerial capacity. He is one of the few men who can manage a newspaper and make it pay, a brilliant writer and a man of the highest ability.

The Review feels safe in saying that there is not a better class of citizens in this state than those found at Ada. The commercial club of that town ranks in point of boosting ability and intelligent work with Muskogee and Oklahoma City.

The Oklahoma Cement works giving employment to from 350 to 400 men, is working overtime. The rock asphalt mines are sending out daily asphalt to Sherman, Tex., to Kansas City, to Oklahoma City, and other good paving material as can be found. Ada is "crude" in the sense of crudeness of Muskogee ten years ago. It is really in many respects ahead of the Muskogee ten years ago, because it has many of the facilities now that Muskogee did not have then. It has three railroads. Within ten miles it has a spring that well known and accepted authorities state will furnish water for 100,000 people. It has more paved streets than Muskogee had ten years ago and a better sewer system.

kogee ten years ago, because it has many of the facilities now that Muskogee did not have then. It has three railroads. Within ten miles it has a spring that well known and accepted authorities state will furnish water for 100,000 people. It has more paved streets than Muskogee had ten years ago and a better sewer system.

Everybody is prosperous in Ada. The cement mills and the asphalt and other industries place thousands of dollars in circulation every month. The cotton fields surrounding the town will this year yield abundance and the corn is in better condition than in many other sections of the state.

Ada is a good town, a promising town, one that is destined within the next ten years to become one of the foremost cities of the state. Its future is assured, for we were shown

CONTROLLER REJECTS OFFER OF BREWERS

Austin, Tex., July 30.—The sum of \$10,000 was yesterday offered Controller Lane by an attorney for the Texas breweries, to be used in the enforcement of the liquor regulation laws of Texas, but it was promptly refused. The controller says the legislature will give him a special appropriation of \$5,000 for that purpose and that he would not think of accepting the money tendered today.

The offer was made by George Slough of Galveston in the name of B. Adoue, president of the Galveston brewery. It was explained that at this time there is no Texas Brewers' Association, it having dissolved, according to Mr. Lane's information, but that a meeting is to be held on August 5 to reorganize.

The offer of the breweries or brewery at this time, on the eve of the special session, may have its significance and possibly its effect.

While there is a demand for liquor regulation by the pros and some of the North Texas antis, who want the night closing bill passed, the governor will probably not open up that subject at the forthcoming session, particularly so wide as to enable the pros, with their majorities in both branches, to pass the ten-mile law, quart law, etc. He might attempt to open it enough to have the session pass the law requiring the saloons to remain closed from 7 p. m. to 7 a. m., but it would be difficult to frame a message confining legislation to that one law. The general subject of liquor regulation would embrace numerous other laws.

And the offer of \$10,000 and the liquor regulation subject are intermingled at this time to such an extent that it is hard to separate them.

Working for the Holdenville Train.

W. E. Conger has been hustling to secure the extension of the Sapulpa-Holdenville accommodation train to Ada. During the last week he has secured the signatures of about 100 traveling men to a petition requesting the Frisco officials to make the change. Another petition will be circulated among the citizens of Ada, and every possible pressure be brought to bear to secure this additional train service.

Date of Demonstration

Will be given in this paper in a few days, telling you where and when we will demonstrate the line of quality can goods, the kind that are not Water Packed. Ask your grocer about catalogue. Save Pure Food Stamps on Hale's Pride and Hale's Leader. Worth 1c each.

FIRST OPEN BOLLS OF THE SEASON

This morning J. A. Paine handed the News the first open bolls of cotton seen this season. He says if the weather is fair, he thinks it likely that the first bale of cotton should reach Ada by the 15th of August. The first of the season being unusually favorable, the cotton crop is a week or two early.

AN INTRODUCTION.

Muskogee is threatened with two
new daily papers. We happen to know
the promoters of these prospectives
and the whole bunch cannot raise
enough hard cold coin to buy a sec-
ond-hand Army press.—Wagoner Rec-
ord.

Ada's Plea to the City Council.

"Dear Dads:
"I want a Carnegie library. What
are you going to do about it?"

The Hobart Republican states that
work is soon to begin on the Carnegie
library at that place. The News
wishes that it could say the same
thing of Ada.

"It is all right for a man to make
some effort to placate his enemies, if
he has any reason to think there is a
chance to win them over, but as a
rule it would pay better to bind closer
the friends he already has instead of
trying to capture his enemies. The
friends who have helped make a suc-
cessful man what he is, are entitled
to first consideration at all times.

Every cloud is said to have a silver
lining, but the cloud created by the
heavy increase of valuations in Pon-
totoc county has only a very thin
silver plated lining. Said lining is the
hope that the heavy increase in val-
ues may permit of a corresponding
decrease in the rate of the levies
made for county and city purposes.
In such event the increase will not be
so bad after all.

The Katy railroad seems to be
about the toughest proposition the
city has yet gone up against when it
comes to getting anything done. The
Frisco complied with the council's
order to place lights at certain cross-
ings about four years ago, but the
Katy has never yet shown any dis-
position to do so. The only light at
a crossing is paid for by the city. This
is not giving the Frisco a square deal
and if the Katy will not come across,

When you want a loan on city
property, either to buy or sell, call
and see us. We can furnish you the
money on monthly installments, to
build if you have the lots, this will
enable you to own your own home
and pay for it as you now pay rent.

Call and let us explain our plan.

Home Title Guaranty Co., Inc.

A. H. CONSTANT, Manager.

Phone 355.

the council should take steps to open
10th street across the tracks and in
that manner even matters up.

Dr. Grant Evans and other teachers
in state schools who failed of re-
election by the new board of educa-
tion, are making quite a roar about it,
accusing the board of being influenc-
ed by political motives, instead of
considering the fitness of the ones
elected to hold the positions for which
they were chosen. The governor has
promised an investigation, but we are
of the opinion that the defeated ones
will get little consolation out of it.
The way it appears to us that the whole
it appears to us that the whole
pointment raised by people who are
poor losers. And nobody likes a per-
son of that kind, either.

The Oklahoma City Times hysteri-
cally demands that because of the out-
rage on justice committed by com-
muting the sentence of the negro,
Prather, Gov. Cruce should at once
resign. Of course that is all bosh. If a
governor resigned every time he went
contrary to public opinion, we would
have a change about every three
months. Of course the governor will
be roundly condemned for his course,
and some of the criticism, at least, is
merited, for his course is a most dan-
gerous one. The worst feature of it is
the encouragement given to mob law.
If it is the governor's policy to com-
mute death sentences when imposed
by the courts, the people, knowing
that there is no chance to punish a
criminal as he deserves by legal
means, will take the law into their
own hands when some foul crime is
committed and the spirit of lawless-
ness will again stalk over the land.
While not approving of the gover-
nor's course, the News takes no stock
in such rot as is expressed in the
Times editorial.

A PLEA FOR MERCY.

While the editor of the News is a
firm believer in capital punishment,
we realize that there are two sides to
the question, and reproduce the fol-
lowing words of condemnation by El-
bert Hubbard:

THE DEATH PENALTY.

Among the pleasant duties of the
president of France is that of signing
all death warrants issued in the re-
public. This is well. President Fal-
lieres says, however, that there should
be a slight change in the arrange-
ment, to-wit: The judge who sen-
tences the man to die, should also act
as his executor. President Fallieres
knows full well that if this were the
case it would do away with legalized
homicide. He says, "I will not ask an-
other man to do that which I myself
am unwilling to do. I will do no mur-
der—even for the state."

Therefore, President Fallieres is
commuting all death penalties to life
imprisonment, and where there is a
ghost of doubt about the man's guilt,
he pardons him. He says, "France
must learn to take care of her crim-
inals without killing them. It's a poor
use to make of a man—to take his
life—it is an acknowledgment of our
inefficiency. Even a life sentence
should hold out to the man the prom-
ise that twenty years of good behav-
ior and useful work will make him
free. Penology must be made im-
science to the end that when we im-
prison a man we do it for his own
good, with the intent of turning out
a better man than we took in. Just as
long as the state sets an example of
killing its enemies, individuals will
occasionally kill theirs.

Two hundred years ago when Eng-
land had forty-six offenses punish-
able by death there was very much
more crime than now. Crime has de-
creased as laws have become more
humane. There is no such thing as a
criminal class. Murder exists first in
the heart; and it often exists in the
hearts of very good people. When the
state ceases to breed murder in the
minds of her citizens, they will cease
not only the killing of each other, but
the desire to kill.

Judicial murders are worse than
those done in passion—they are so
atrociously premeditated, so delib-
erately planned. No excuse can be made
for them, beyond precedent.

The sentiments of the people are
opposed to this legal killing business,
and this is why so many murder
trials turn themselves into a farce.
When there is to be an electrocution
everybody tries to get out of the job,
and the deadly current is always
turned on by a man at a distance
from the scene, who saves his con-
science by pretending to think he is
turning on the lights, and in many
cases the executioner is a convict,
working under orders.

President Fallieres' refusal to either
act as an executioner, or to order
others to take human life, is a man-
ifestation of the Better Spirit of the
Age.

Now let enlightened America by her
judges and governors do the same.
Our president and every governor of
every state is a negative party to these
judicial killings. They know
what is being done and by lifting a
finger they can stop it, just as Pres-
ident Fallieres has done. Let them
commute every death sentence to im-
prisonment for life, all without ar-

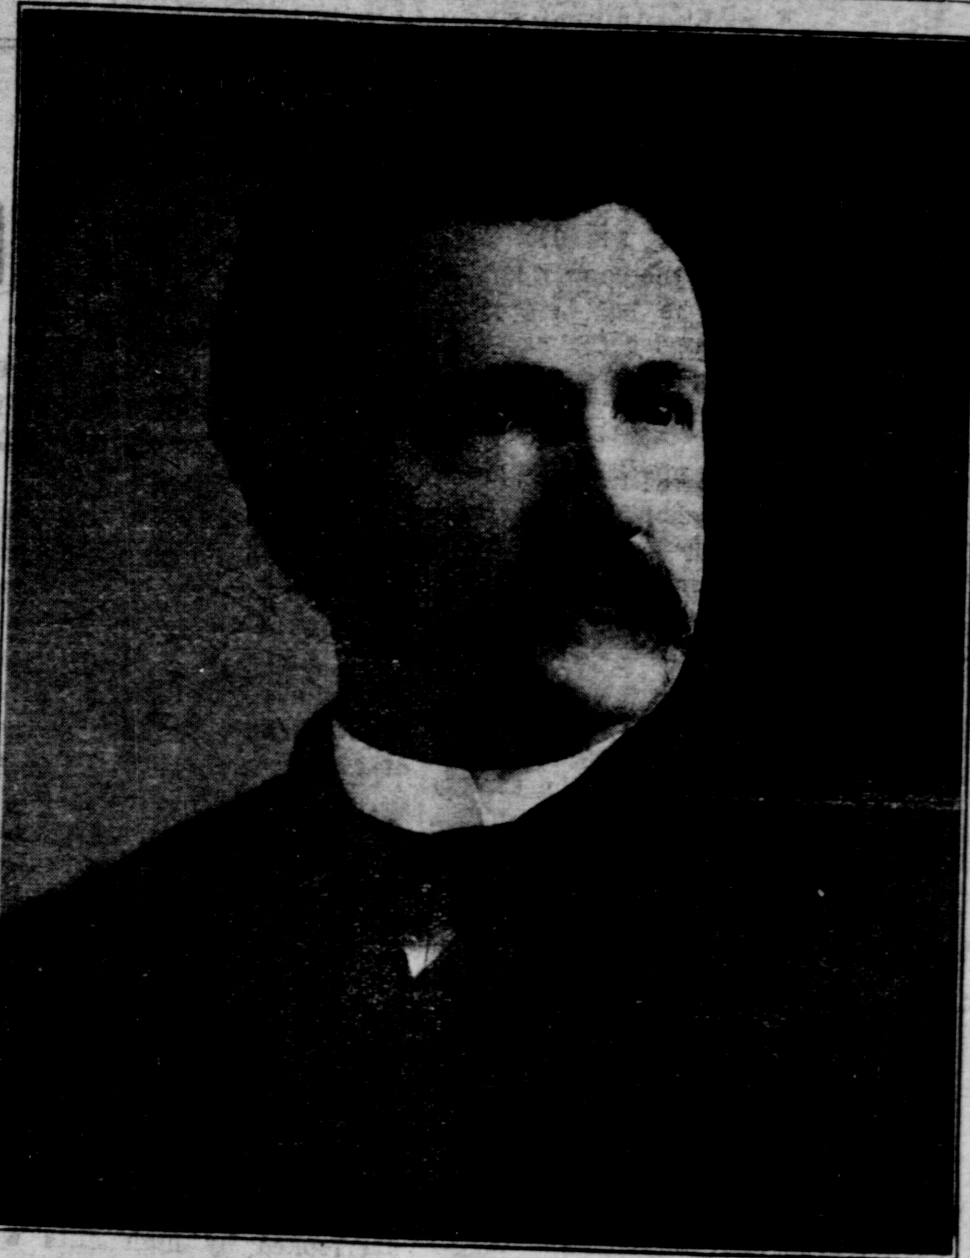

GOOD CROWDS ATTEND

CHRISTIAN MEETING

The meeting that is being conduct-
ed by the Church of Christ, under the
tent just west of the city hall is at-
tracting large crowds. The singing,
led by Prof. Bounds, is fine.

The public is cordially invited to at-
tend all services.

Hours for service: Everyday 10 a.
m. and 8:15 p. m.

argument or question and they will
thereby express the Spirit of the
Times, and Father Antic, the Law,
who always lags behind, will man-
icure his claws.

Thou shalt not kill!

The raising of tax values will not
affect the total amount collected by
the county and city governments to
any extent, the estimates having al-
ready been made. The rate will be
some smaller than would have other-
wise been necessary, but the effect
will be felt in the state levy. The
worst feature of the whole business
is the premium it will place on tax
dodging hereafter, the average citizen
figuring on a raise in values will
simply insist on his property being
valued at the lowest possible figure.
Furthermore, there will be a constant
temptation to fix the estimates as high
as possible because the big valuations
will justify it.

Oklahoma Items.

Gov. Cruce offers reward of \$500
for the capture of the party guilty of
the murder of Ira Boatright at We-
leetka.

James H. Hanlin and wife of Okla-
homa City have brought a suit for
\$25,000 against the Belle Isle Im-
provement Co. on account of the
drowning of their eight-year-old son
in the swimming pool of defendant
June 26.

City officials of Guthrie and of the
Santa Fe railroad are considering the
creation jointly of a big lake east of
the city in order to make certain a
never-failing water supply. It is pro-
posed to erect a dam at a cost of \$98-
000 which would make a reservoir of
a billion gallons capacity.

Work on the foundation for the
Cleveland glass plant was begun last
week. The work is being pushed as
much as possible, so the factory may
be in operation by the early fall. An
office is also being built on the
grounds and will be completed this
week.

NEW MASONIC

ORPHANS HOME

Where once the noble red man held
pow-wows beneath the massive shade
of the groves surrounding the build-
ings of the old Darlington Indian
agency orphans now play and aged
men, all recipients of Masonic char-
ity, indulge in quiet ease and lux-
ury. For the historic agency building
passed from government hands to pri-
vate ownership when it was purchas-
ed by the state Masonic Grand lodge,
and now offers a comfortable retreat
for the helpless.

The Darlington Indian agency build-
ing and grounds were purchased more
than a year ago for the sum of \$73,000
congress having passed a special act
authorizing the sale of the property.
Since that time the grand lodge has
expended about \$50,000 in improve-
ments. The directors of the Masonic
home recently purchased Caddo
springs, producing a big flow of fine
mineral water, which will be piped to
the home buildings.

Presiding Justice Henry Furman,

of the criminal court of appeals, is
largely responsible for the establish-
ment of a Masonic home in this state.
The old Indian Territory district
alone contributed \$51,000 toward the
purchase of the property which is
now valued at about \$250,000. Prior to
statehood a temporary home was
maintained at Atoka.

There are twelve aged people and
ninety-four children in the Darling-
ton institution at present. The grand
lodge apportioned \$40,000 to the home
for 1911. \$25,000 for maintenance and
\$15,000 for improvements. There is

some income from the farm which
comprises 630 acres. Work of con-
structing a concrete swimming pool
for the children will be commenced
as soon as water is brought from Cad-
do springs. The directors of the insti-
tution are W. L. Eagleton, Norman;
L. E. Lounsbury, McAlester, and A.
E. Monroney, Oklahoma City.

Important Post.

At one time Darlington was the
most important trading post in what
was then known as Indian Territory
and the sun of prosperity rose high
above the settlement. Indian trad-
ers came and established stores. A ho-
tel was built for the accommodation of
visitors and army officers. Lafe
Merritt established a newspaper to
tell of the glories of the enterprising
post and incidentally to swell the
bank roll of the editor by advertis-
ing the brand of every herd that roam-
ed between the Canadian boundary
and the Mexican line. Many promi-
nent government officials and other
travelers of note were entertained at
the hotel which was under the man-
agement of John Murphy, who was
one of the earliest pioneers to seek
his fortune in the great southwest.
Game of all kinds was to be had in
made friends of all who came his way
by serving dinners of buffalo meat
and venison steaks. When steak or
pork were to be served it was made
a special occasion and the hotel pro-
prietor sent out announcements. So-
cial life at the frontier post was of
the gayest and on the long summer
evenings the young officers from Fort
Reno and the attaches of the Indian
post would dance to the music of the
army band from the fort.

The history of Darlington is replete
with romance of frontier adventure.
The agency was established in 1870
by Brinton Darlington, a Quaker, who
was at that time the agent for the
Cheyennes and Arapaho Indians and
had a camp on the government trail
leading from Fort Riley, Kan., to Ft.
Sill, I. T. He called a council of the
leading men of the two tribes and as
the council fires smoldered and the
pipe of peace was passed from hand
to hand, he told them of his inten-
tions of founding an agency where
the Indians could talk to the agent
without going so far from their
homes. The camp was moved down
the river in canoes until the present
site of what was the old Darlington
school for Indian orphans. (known
by the Indians as ashcats) and the
agency buildings, which were con-
structed of cottonwood lumber cut
from trees which grew in profusion
along the banks of the North Cana-
dian river and sawed into boards es-
tablished at the agency.

MILITIA CALLED OUT TO PROTECT MURDERER

Pawnee, Okla., July 30.—Fearing a
riot and the lynching of A. C. Ogburn,
who was brought to the Pawnee coun-
ty jail Friday, charged with the mur-
der of Joseph Plumley, Company E
of the Oklahoma National guards was
ordered out Saturday by Adjutant
General Canton and stood guard over
the jail all night. While the situation
had quieted down over Sunday, the
company was kept on duty Sunday

and Sunday night to prevent another
outbreak.

Ogburn is alleged to have killed
Plumley with a hand ax, following a
quarrel over the prohibition question.
The crime was committed Thursday
night, and there was bad feeling from
the time the slayer was arrested and
taken to jail. Frank Manning, also
charged with murder who is said to
be a bad man, is also confined in the
jail and it was feared that if a mob
was formed to lynch Ogburn that
Manning would also be strung up.

Quick Action Taken.

The situation was so serious Satur-
day night that the county attorney
and sheriff of Pawnee county got
Governor Lee Cruce over long dis-
tance phone and asked for assistance.
The message was transmitted to Gen.
Canton, who at once ordered Major
Grimsley, in command of Company E,
to assemble the troops. The order was
obeyed and within a half-hour a cor-
don of guardsmen was thrown around
the jail. There were continued threats
against the two prisoners, but no
demonstration was made.

"I do not look for any serious trou-
ble now since the jail is so well
guarded," said General Canton Sun-
day evening, "but the guards will be
kept on the scene as long as there is
any danger of an attempted lynch-
ing."

WICHITA FALLS LINE EXTENDING TO WOODWARD

Guthrie, Ok., July 30.—The Wichita
Falls and Northwestern railroad,
headquarters at Wichita Falls, Tex.,
yesterday let the contract to Walter
H. Dennison of Lubbock, Tex., for the
construction of 900,000 yards of the
extension of the line from Hammon
toward Woodward, the contract rep-
resenting the first nine miles of the
extension north of the South Cana-
dian river. The contract for the ex-
tension from Hammon to the river
was let during the past week. A third
contract has been let to J. L. McSpad-
den for a portion of the construction
work between the river and Wood-
ward. This extra extension north from
Elk City to Woodward covers nearly
200 miles and will give the Wich-
ita Falls and Northwestern, when com-
pleted, nearly 500 miles of main line
in this state. Recently officials of the
road stated they had made financial
arrangements with the Missouri,
Kansas and Texas for the construc-
tion of the extension to Woodward,
and this has given rise to the belief
that the Katy will eventually take
over the property. The only line at
Woodward now is the Panhandle di-
vision of the Santa Fe system.

There's Not a Store In Town

That Would, In Six
Months From Now
Be Half as Important
as it is Now, if it
Should Stop Adver-
tising During That
Time!

Isn't that perfectly true—perfectly logic?
Can you imagine any store of which it would
not be true?

And, if true, does it not follow that the re-
verse of the proposition is true, too—that the
store that doubles its accustomed advertising
for the next six months will also double its ac-
customed store growth for that period?

And does not this, also, apply to any store
you can think of in this town?

YOUR ACCOUNT

You should keep an account with this bank because our resources are large enough to enable us to take care of all your legitimate needs. Because we are considerate and liberal in the treatment of our customers. Because our facilities are such as to enable us to give prompt and efficient service in every department of banking.

P. A. Norris
President

M. D. Timberlake
Cashier

To the Public.
We have lately overhauled our mill and installed some new machinery including the latest up to date methods in modern milling which enables us to make the clearest flour that is possible to be made from wheat. In order to introduce our new flour and convince you that there is no better made we will sell until further notice at \$1.00 and \$1.10 a sack.

Patronize Home Industries.
All things being equal people should patronize home industries thereby helping to build up your city and country. But we don't want to take advantage of that fact in order to sell you inferior flour. Ada flour stands on its own merits and is second to none in the state. Remember that our mill pays taxes in your city and county. So try our flour and if you like it continue to buy it thus helping to build up a home institution.

Why Not Organize the Drummers.

Jno. W. Beard figures that eighteen traveling salesmen reside in Ada. As frequently remarked before by the News, these men are the best possible boosters the town has. They see more people and have a better opportunity to do effective work for the town than any other class. Therefore, Mr. Beard suggests that they be encouraged to organize. With the assistance of the Chamber of Commerce an effective organization could be effected that would be a most valuable adjunct to the business organizations of the city.

ROAD PROGRESS IN SOUTHERN STATES

Washington, D. C., July 29.—The Interstate Good Roads Conference is in session at Mountain Lake Park, Maryland. It deals principally with the road problems of Maryland and West Virginia. Managing Director Dawe of the Southern Commercial Congress, however, appeared before the Conference tonight and made a sweeping survey of the good roads. His reports were up to the minute and in many cases included happenings within a week.

Alabama was praised for its five year campaign to secure a state highway commission.

Arkansas was commended for having now formed a state good roads and drainage association to prepare a general road law, which the state still lacks.

Florida was commented on for its country roads, made of brick, and a recent tour to work up sentiment for a good roads association.

Georgia was praised for its convict work on the roads, 4715 being at work over 111 counties; and for its proposed law for a state highway commission.

Kentucky was referred for its great pike systems of crushed rock.

Louisiana came in for great praise because of the sudden change from indifference to activity under the efforts of Governor Sanders.

Mississippi was shown to be preparing a great and worthy campaign.

Missouri was commended a moving toward state aid particularly as applied to great trunk lines proposed.

North Carolina was shown to be up to the minute and ahead on its Central Highway plans.

Oklahoma was shown to have an especially heavy problem since every section line is by law a public road.

South Carolina was shown to lead in the use of sand-clay mixtures and cheap construction.

Tennessee with its daring plans for main lines of travel east and west and for intermountain scenery was highly praised.

Texas and its problems were referred to as being dealt with in a brave way; there being 140,000 miles of road to handle.

Virginia was especially commended for its progress in bridge building and the influence of the State Highway Commission.

In closing Mr. Dawe said: "The South has yet a long way to go, but it is on the way. When our great president last week took almost as long to get to the battle field of Bull Run from Washington as it took a number of earnest and eager men to get from Bull Run to Washington fifty years ago, it is quite evident that we have much yet to do. In this connection I may mention that while this session is going forward the State Highway Commissioner of Virginia and a number of other important gentlemen are actually traversing the roads between Washington and Richmond for the purpose of establishing a highway that is creditable and that will form an important link in relation to highways north of Washington and highways south of Richmond."

Capt. Fisher was in from the pipe line Sunday and informed the News that only about three miles of the ditch remains to be dug. About half the pipe has been laid, and a test will be made of it this week.

J. B. Carr, an expert employed by the Wychoff people, is on the ground to superintend the replacing of the wood pipe from the spring to the pumping station.

The pumps have arrived and will be put in place at once.

PROGRESS OF THE BYRD'S MILL LINE

Capt. Fisher was in from the pipe line Sunday and informed the News that only about three miles of the ditch remains to be dug. About half the pipe has been laid, and a test will be made of it this week.

J. B. Carr, an expert employed by the Wychoff people, is on the ground to superintend the replacing of the wood pipe from the spring to the pumping station.

The pumps have arrived and will be put in place at once.

JUDGE SENTENCES FIVE TO THE PEN

The term of district court practically closed this morning when Judge McKeown passed sentence on the five men convicted who had not already received sentence. Jno. Allen was given five years. He has served notice of appeal, however and his bond fixed at \$4,000, which he has not yet made. Bob Blaylock was given a like sentence of five years on conviction for arson. A. A. Kight got a year for theft of a saddle; Jim Robertson ten years for rape, and Bob Williams two years for burglary. The prisoners will be taken to McAlester in a few days to begin their sentences.

More mothers would want their sons to be ministers if they were not afraid it might prevent them from becoming president.—Chicago News.

THE TENT MEETING 8TH AND OAK AVENUE

The subject last night was: "The Love of God."

God created man in his own image and placed him in the beautiful Garden of Eden. But man is never content but longs to follow his own way, and is ready to listen to some other voice rather than the voice of God.

Still God bears with erring man, for he is not pleased to see the death of any, but rather that all should turn and live. He has given his only begotten son to die a substitute for guilty man. Will we accept the great sacrifice?

Although his love is infinite, his judgments are sure, and the time will come when he will say "He that is unjust let him be unjust still." And behold, I come quickly and my reward is with me, to give to every man according as his works shall be." Rev. 22:11-12.

So let us endure "Sound Doctrine" as bold soldiers and take heed to the word of God, lest we be led away from the right path as was Adam and Eve. God is not pleased with the doctrine and traditions of men, but wants us to refrain from them and take heed to the words which he speaks. He says, "If you love me keep my commandments."

There will be meeting again on Friday night.

OVER 8,000 CHILDREN WITHIN SCHOOL AGE

That the population of Pontotoc county is steadily increasing is shown by the returns of the scholastic census. Supt. Pierce informs the News that within the borders of the county there are 8,559 children in school age. Last year's report showed 8,322 or 237 below the present enrollment.

NOBODY SPARED.

Kidney Troubles Attack Ada Men and Women, Old and Young.

Kidney ills seize young and old. Come quickly with little warning. Children suffer in their early years. Can't control the kidney secretions. Girls are languid, nervous, suffer pain.

Women worry, can't do daily work. Men have lame and aching backs. The cure for man, woman or child. Doan's Kidney Pills reach the cause.

The following testimony proves it. Mrs. C. B. Barksdale, of Holdenville, Okla., says: "A little over a year ago a member of my family had occasion to use a kidney remedy. At that time the person afflicted was suffering a great deal from sharp pains through the small of the back. There were other symptoms of kidney trouble and when a friend advised a trial of Doan's Kidney Pills, a supply was procured. Relief followed in a few days and continued use removed every symptom of kidney trouble. There has been no return attack."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other. 31

Physiologists Disagree.

There are few persons who realize how greatly physiologists are at variance in their estimate of the actual work performed by the Liver. While all agree that it is the largest and one of the very important glands of the body, when it comes to the question of the actual work performed, there seems to be a wide diversity of opinion.

Practically all are agreed, however, that the principal work of the Liver is the separation of such materials contained in the body as might exert a poisonous influence upon the body unless thrown off.

Rexall Liver Salts has been produced with the idea of assisting the torpid Liver to perform its proper functions in a proper manner, and the success which has attended the treatment leads us to recommend this preparation to you.

If your case is not properly benefited, we will refund all money you may have paid us for the remedy. In two sizes, 25c and 50c. The Rexall Store, Gwin & Mays Drug Co.

Pointed Paragraphs.

The brave deserve the fair—after facing the powder.

It's a pity we can't correct our mistakes in advance.

A woman isn't necessarily 60 because she talks like it.

But he laughs best who doesn't have the laugh on him.

Superstitious women find imaginary injuries awfully trying.

What has become of the old-fashioned spinster who used to envy married women?

It's difficult to convince a married woman that kindness will subdue all savage beasts.

THE HOLY NAME.

Pastor Russell Declares That Millions of Christians Unwittingly Profane the Creator in Misrepresenting What His Holy Name Represents.

SUGGESTIONS WORTHY OF CONSIDERATION.

Denver, Colo., June 18.—Pastor Russell gave two public addresses here today, one of which we report. Many of Denver's prominent religious people were conspicuous in the large audience.

Profound impressions were undoubtedly made. Speaking from the text, "Holy, holy, holy, Lord God Almighty; the whole earth shall be filled with thy glory" (Revelation iv. 8), the speaker said:—

Three General Views.

There may be said to be three different theories prevalent in Christendom on the subject. All three of these views declare that the Almighty, with full power to have done otherwise, so created humanity that a child once born into the world can never die—must live somewhere unceasingly—either in pain or in pleasure. By what authority any make these declarations we have never ascertained.

Our Catholic friends tell us that by Divine arrangement, terrible purgatorial experiences await practically every member of our race. In the hope that, if rightly exercised thereby, after centuries of torture, an eternity of bliss will be gained. Is not this also a blasphemy against the Holy Name? Who could deny it? Surely such a theory is blasphemous, horrible.

Worse and Worse—Predestinated.

Is it any wonder that, in early life our childish hearts were filled with fear rather than with love toward our Creator and toward His Revelation, the Bible? Is it any wonder that it required all kinds of fighting with our common sense to believe, as we were taught we should, that God lovingly predestinated that all human families should suffer eternally except a saintly handful—because He was pleased to have it so—because He foreordained that it must be so—because He had made a great place called hell before He made the earth, and made it large enough to hold the entire human family—because He created fire-proof demons to inflict tortures upon the poor unfortunates who were shapen in iniquity, in sin conceived by their mothers.

Still Another Blasphemy.

A considerable proportion of thinking Christian people will join with us in saying, Ah, surely Brother Calvin grievously erred and grievously misrepresented the God of love when he taught the doctrine of the predestination of the wicked to eternal torture! Ah! say these Christian friends, our hearts rebel against that theory of Divine predestination. We claim that the Almighty is Love, itself—that He is sympathetic with His creatures, and is using every effort to avert the great calamity of eternal torture for the great majority of the race.

Ah! my friends, is not this still another form of blasphemy? If some of us blasphemed the Holy Name in representing our Heavenly Father as merciless, loveless, have we not in another way blasphemed that same Holy Name in declaring that He lacks the power and the wisdom to do the good which His loving heart would prompt? Do we worship a stupid and impotent God, one who blundered in the creation of our race, and who, for six thousand years, has been striving to rectify that error and all the while has been allowing thousands of millions of His creatures whom he loves to go down to an eternity of torture? Alas! it would be nearly as easy to worship an all-powerful and loveless God as to worship an all-loving but unwise and impotent God who foolishly, sinfully, brought thousands of millions of intelligent beings into existence only to suffer an eternity of agony through His incompetence.

"Holy, Holy, Holy, Lord God."

We come now to our text. It declares that the time is coming when the whole earth shall be full of God's glory. Ah! glorious day! Then the shadows of ignorance, superstition, misunderstanding and misrepresentation in respect to the Divine character will all flee before the light of the knowledge of the glory of God—the appreciation of the Divine character as manifested in the Divine Plan for human salvation. Could this Scripture ever be fulfilled, could the Divine character ever be appreciated by intelligent, honest, just and loving hearts, if in any corner of the Universe there were such orgies and tortures of His creatures as the creeds of the Dark Ages have set forth? Surely not! On the contrary, in this glorious Day will be fulfilled the Scriptural prediction, "all in heaven and in earth and under the earth [everywhere] heard I saying, praise, glory, honor, dominion and might be unto Him that sitteth on the throne, and unto the Lamb forever!"

Woman's Nature

It is the nature of women to suffer uncomplainingly, the discomforts and fears that accompany the bearing of children. Motherhood is their crowning glory, and they bravely suffer for the joy that child brings. No expectant mother need suffer, however, during the period of waiting, nor feel that she is in danger when baby comes, if Mother's Friend is used in preparation of the event. Mother's Friend relieves the pain and discomfort caused by the strain on the different ligaments, overcomes nausea by counteraction, prevents backache and numbness of limbs and soothes the inflammation of breast glands. Its regular use fits and prepares every portion of the mother's system for a proper and natural ending of the term, and it assures for her a quick and complete recovery. Mother's Friend, is sold at drug stores. Write for free book for expectant mothers.
